Notes:

To view 50-state map of these data, please see Kaiser Slide entitled [Current Status of Health Insurance Marketplace and Medicaid Expansion Decisions](<http://kff.org/health-reform/slide/current-status-of-health-insurance-marketplace-and-medicaid-expansion-decisions/>).

A central goal of the Affordable Care Act (ACA) is to significantly reduce the number of uninsured by providing a continuum of affordable coverage options through Medicaid and the Health Insurance Marketplaces. The ACA expands Medicaid coverage for most low-income adults to 138% of the federal poverty level (FPL); see this [table](<http://kff.org/medicaid/state-indicator/medicaid-income-eligibility-limits-for-adults-at-application-2014/>) for state by state Medicaid income eligibility levels for adults.

***Health Insurance Marketplace Types*:** Coverage through the Marketplaces began in every state on January 1, 2014. The fourth open enrollment period runs from November 1, 2016 through January 31, 2017. State Health Insurance Marketplace Types are as of November 1, 2016 and apply to the fourth open enrollment period.

***Current Status of Medicaid Expansion Decision*:** Following the June 2012 Supreme Court decision, states face a decision about whether to adopt the Medicaid expansion. States' decisions about the Medicaid expansion as of October 14, 2016. For more information, see: [Status of State Action on the Medicaid Expansion Decision](<http://kff.org/health-reform/state-indicator/state-activity-around-expanding-medicaid-under-the-affordable-care-act/>). It is important to note that per CMS guidance, there is no deadline for states to implement the Medicaid expansion.

Data compiled through review of Marketplace documents and communication between the states and CCIIO by the Kaiser Family Foundation.

Current status on the Medicaid expansion decision for each state is based on KCMU tracking and analysis of state executive activity.

Definitions:

***Health Insurance Marketplace Types*:**

***State-based Marketplace*:** States running a State-based Marketplace are responsible for performing all Marketplace functions for both the individual market and the Small Business Health Options Program (SHOP). Consumers as well as small employers and their employees in these states apply for and enroll in coverage through Marketplace websites established and maintained by the states.

***State-based Marketplace-Federal Platform*:** States with this type of Marketplace are considered to have a State-based Marketplace, and are responsible for performing all Marketplace functions for the individual market and the SHOP, except that the state will rely on the Federally-facilitated Marketplace IT platform. Consumers as well as small employers and their employees in these states apply for and enroll in coverage through healthcare.gov.

***State-Partnership Marketplace*:** States entering into a Partnership Marketplace conduct plan management and may administer in-person consumer assistance; HHS performs the remaining Marketplace functions. Consumers as well as small employers and their employees in states with a Partnership Marketplace apply for and enroll in coverage through healthcare.gov.

***Federally-facilitated Marketplace*:** In a Federally-facilitated Marketplace, HHS performs all Marketplace functions. Consumers as well as small employers and their employees in states with a Federally-facilitated Marketplace apply for and enroll in coverage through healthcare.gov.
